Seclusion Without Isolation

In IRVING PARK

In the Beautiful Wooded Section Along Dover Road

In Irving Park the home owner never need worry about other homes being built so close as to destroy the seclusion and privacy of his own. And to have seclusion without isolation is a wonderful asset.

In the new and most attractive Dover Road section this is particularly true, and the rapidity of its development within the past year indicates its appeal.

Seven of the nine built here in the last 12 months are now occupied. The remaining two are ready for occupancy.

Or, if neither of these exactly suits your needs, we will build for you on any lot you choose.
